WITH EVERY HOME INSPECTION

FHA/VA ROOF CERTIFICATION STRUCTURAL CERTIFICATION & VISUAL MOLD SCAN

OUR QUESTION TO YOU...

Is it better to pay for a home inspection and then pay again for a roof certification, structural inspection, and an additional mold inspection or use DC Home Inspection Service for the home inspection where these services are included at no additional cost?

You do the math! DC Home Inspection Service is FHA/VA approved and certified to perform roof and structural certifications and provides all the necessary forms to complete the transaction. DC Home is also IAQ certified for mold evaluation, testing, and mitigation.
